

ADVANCED Liquid Fertilizer

Application:

- Hay/Pasture: 1 qt/acre start up. Repeat monthly or 1 week after each cutting at 1 pint/acre
- Row Crops: 1 qt/acre start up. Repeat monthly at 1 pt/acre
- Make final application two weeks after last cutting to reduce winter stress and enhance spring vigor.
- Seed Starter: 1 pt - 1 qt/acre

ADVANCED Liquid Fertilizer is an Organic Blend designed to release nutrients in the soil, enhance the absorption of applied nutrients and stimulate the plants efficiency in utilizing atmospheric nutrients. Can be used as a 'Foliar' or 'Seed Starter' application.

Keep out of reach of children.
Avoid contact with eyes and skin.
