FIRST AID

Skin: Remove contaminated clothing. Wash with plenty of clean water and soap. Consult a physician.
Eyes: Rinse with clean water for a minimum of 15 minutes. Seek medical attention.
Internal: Drink 2 glasses of water. DO NOT INDUCE VOMITING. Seek medical attention at once.

NITRO-CORN & GRAIN is a concentrated solution designed for foliar application to treat micronutrient deficiencies in fruit and other crops.

DIRECTIONS FOR USE

Foliar Application Rate: 0.5 to 2 pints per acre depending on soil and tissue test(s). Consult an authorized representative for specific rates.
Ground Foliar Application: Dilute with 8-15 gallons of water per acre.
Arial Application: Dilute with 3-5 gallons of water per acre.
Mixing: Always jar test before mixing. May not mix well with high phosphorus fertilizers.

Transporter surfactant should be added to improve surface coverage and absorption. NITRO-CORN & GRAIN will lower the pH of water in a spray tank from 7.4 to approximately 6.0 when it is added before other materials at a rate of 1 quart per 500 gallons of water. Shake well before using.
